EXPERIENCE

Web Developer - Self-Employed - Emeryville, CA

2011-Present

Freelance web developer focusing on the Pyramid Web Framework. Some notable public-facing projects include:

- <http://fincaslc.com>
- <http://imatterutah.org>

IT/System Administrator - University of Utah - SLC, UT

2007-2011

Extensive heterogeneous environment spanning 7 buildings, 1300 nodes, gigabit Ethernet, fiber uplinks, 1200 active users. Full range of services including remote Unix shell and X applications, Terminal Services, Active Directory, Web hosting, network file services (NFS, SMB, AFP), backup (Netbackup), workstation deployment, patch management, distributed power management. Staff of 7. My personal responsibilities included:

- Personally configuring, maintaining, and supporting all Linux and Mac hosts.
- Configuring and maintaining SPARC servers running Solaris 8 and 10.
- Compiling application tree for web and other network services
- Editing DNS records – cleaning up old entries
- MySQL – managing several instances. Replication/backup.
- Configuring and managing centralized logging with Syslog and Syslog-ng.
- Maintaining monitoring and alertss services ie. Nagios and Zabbix.
- User and group management (originally in NIS+, transitioning to LDAP/AD).
- Supporting Windows servers as needed (AD, terminal services, Exchange).
- Desktop support and deployment as needed (WinXP, Win7).
- Remote management of servers and workstations using SSH, RDP, and VNC.
- Frontend web development in TikiWiki, Joomla, and Dreamweaver-based sites.
- Debugging old PHP code - custom and open source CMS
- Maintaining and writing new shell scripts - Bash, CSH, Batch, and Python.
- Supervising and delegating to technical assistants.

IT Consultant - JP Tech - SLC, UT

2004-2008

I opened an IT consulting firm serving small businesses and home office users.

- Providing a full range of IT services in Salt Lake City and Phoenix.
- Supporting Windows XP desktops and Linux(Gentoo, Ubuntu) servers.
- Web design, development, and hosting.
- Custom web applications.
